INVENTION OF ELECTRIC MINERS' LAMP TO BE GREAT AID IN MINING

Charleroi Company Will Manufacture and Put New Lamp on the Market

ATTRACTING ATTENTION

Universal Interest Taken in Invention—Is Regular Two-Candle Power Electric Light—Can be Re-Charged

By the recent granting of a State charter a new corporation has been launched, the object of which is the manufacture of a miners' storage battery lamp that is designed to meet all the requirements that have heretofore baffled inventors. The new corporation bears the name of the R. & B. Lamp Company, and it is composed largely of Charleroi men.

In view of the frightful loss of life in coal mines during the past few years through explosions, and the dangers incident to operating gaseous mines, much attention has been given the question of lighting. Something was needed to take the place of the open as well as the safety flame lamp, and much investigation and experimentation has been conducted along this line both by the National and State governments, as well as by individuals in an effort to devise something that would add to the safety of the miners in this hazardous occupation.

Some time ago experiments begun by members of the newly-organized corporation had such a successful termination that after a series of tests extending over a period of two years had been completed, the company was organized to manufacture the lamps and place them before the public. The R. & B. Lamp company now offers to the public the most compact, complete, simple and durable miners' lamp ever placed on the market. It is an electric storage battery lamp that will burn continuously during a working turn, and can be re-charged indefinitely and at a cost far below any other source of lighting used by the miner while at work.

The new lamp, of which, so far as known there are none like it anywhere in the world, combines the miners' cap, battery and lamp in one. It gives a two-candle power light, and stands up to a 90-per cent efficiency for a period of 10 hours. It is worn on the miners' cap like an ordinary mine lamp, and its maintenance is not one-fifth the cost of an oil lamp. With a 2-candle power incandescent bulb inside a glass reflector, there is no danger whatever of igniting any gases that may be encountered.

An important factor in the development of the new storage battery lamp, is a recharging rack that automatically recharges the batteries in any quantity. The rack is so arranged that each lamp battery can be tested, and if any one is not getting its proper charge, an automatic alarm indicates the lamp that has a defective circuit. The lamps are placed in the racks by the miners when they return from work, and the current turned on for the re-charging process. When the lamps are given out to the miners they are sealed so that

the inspector can instantly detect any tampering with the mechanism of the lamp.

It is the solution that composes the contents of the battery that has solved the problem of weight and efficiency. This is composed of chemicals which under the influence of the electric current while it is being charged becomes a liquid, and as soon as it is charged ready for usage the liquid assumes a jelly-like proportion that prevents the mixture from spilling. The connections of the battery are so arranged that they cannot go wrong and the glass reflector is made doubly strong to withstand hard usage.

It has been demonstrated by actual tests that 500 lamps can be maintained at a cost of 78-100 of a cent a day for each lamp. This includes breakage, solution, current and labor. The lamp has passed the experimental stage, and now bids fair to revolutionize mine lighting.

The company organized for their manufacture is a Pennsylvania corporation. The lamp has been patented in the United States and Canada, as well as in all the principal coal mining countries in Europe. The stock is closely held and none is offered for public subscription. The officers are President, Geo. F. Rylands, Charleroi; general manager, C. P. Bartley, Pittsburgh; secretary and treasurer, R. H. Rush, Charleroi.

Already the company is being overwhelmed with orders. The lamps are now in use in the Acme mine No. 2 of the Pittsburgh-Westmoreland Coal company near Bentleyville, and are giving the best of satisfaction. Inquiries are coming every day, which indicate the popularity of this method of mine lighting.

In order to still further demonstrate the efficiency of the lamp Geo. F. Rylands president of the company will attend a demonstration of mine lighting lamps to be held at Rotherham, England on January 1. Mr. Rylands will start for New York Monday, and sail from that port on December 20 on the steamship Laurentic, of the White Star line. The search for a safe and simple electric miners' lamp in the mining countries of Europe has been even more strenuous than in this country, and the officials of the R. & B. Lamp company believe that they are prepared to show the experts over there the real thing.

The company has not yet made preparations for the manufacture of the lamps on a large and permanent scale, but that will be worked out as rapidly as possible. It is expected that in the course of time a well-equipped factory will be established and that the industry, from the already big demand for the lamps and the intense interest manifested, will from the very start assume big proportions.

Postmaster Frye Orders Free Mail Service Discontinued on Monessen Hill

Sections of streets and parts of Monessen have become so nearly impassable for one walking that Postmaster E. M. Frye a few days ago after an inspection at the lower end of town ordered the free delivery of mail stopped on Donner and Schoonmaker avenue below Oneida street and parts of Rostraver, Linden and Knox avenues.

RECEPTION IS GIVEN

Friends and Relatives Compliment Mrs. Margaret Galey

HONOR 90TH BIRTHDAY

On the occasion Friday of the 90th birthday of Mrs. Margaret Galey, she was made the honor guest at a reception given at the home of her daughter, Mrs. Thomas P. Grant of Lincoln avenue. Thirty-five of the relatives and friends grouped about her and spent the afternoon and evening in pleasant conversation. "Grandma" Galey, who is enjoying the best of health in spite of her age, was the merriest of the group.

Dinner and supper were taken at the Grant home by the guests, many of whom were from out of town. Mrs. Galey was showered with profusions of flowers until the reception rooms were strewn. Mrs. Galey is now arranging to go to Orlando, Florida with her daughter and Mr. Grant and the reception assumed in part the nature of a farewell. She will spend the winter at Orlando, with Mr. and Mrs. Grant, leaving on New Years eve.

Among the out-of-town people who came to tender their greetings to Mrs. Galey and to wish her many more happy birthdays were Mrs. Mary Galey of East End, Pittsburgh; Miss Ruth and Roger Galey of Sewickley; Mrs. James Galey of Beaver; Mrs. Dent Deems of Washington; Mr. and Mrs. M. McGrew of Beaver; Rev. and Mrs. Perrin Baker of Belle Vernon; Mr. and Mrs. Henry Sphar of Roscoe and Mr. and Mrs. Isaac Shepler of Belle Vernon.

Washingtonions to Meet the Adamsites in Game on Local Floor

Washington will make its second appearance on the local floor tonight when it will meet the Charleroi team of passers. Charleroi played at Washington Friday night and won after a hard struggle. With the acquisition of Brady, who has been appointed captain, Washington is putting up no slouch of a game. They made it about as interesting for Charleroi Friday night without something breaking as it was possible. The Magics are seriously in need of another game. Washington is hopeful of winning one.

MATE OF BOAZ IS KILLED

Jesse Price, Formerly of Speers, Hit by Drawn Bulkhead BROTHER IS NOTIFIED

Word was received Friday afternoon by Leroy Price of Fallowfield avenue of the death of his brother, Jesse Price, aged 49, at Neville Island, on the Ohio river some time Friday morning. The latter was killed by a bulkhead on the towboat, Boaz, of which he was first mate, pulling out and striking him. George Garry and Samuel Detwiler were injured at the same time and the former's condition is serious.

Mr. Price and the other two men who were hurt were engaged in mooring the Boaz at Neville Island when the accident occurred. Mr. Price being of the kind of man who though in a position to direct insisted upon doing the hardest work with his men was engaged in duties near the bulk head when it pulled out and he received its full force as it was sharply drawn through the air by a coiling rope. His head was crushed and his body was otherwise cut and mangled. He leaves his widow, two children, three brothers, three sisters and his mother.

Mr. Price was a native of this vicinity and was raised at Speers. He was a well known riverman. Funeral services will be held at the late home at 2:30 o'clock Sunday afternoon and the body will be brought to Speers on Monday morning. Interment will follow in Mt. Tabor cemetery.

Will Give a Recital

Player-Piano to be Used in Accompaniments for Violin and Vocal

Tonight a free musical recital will be given at the W. B. Pfeighardt Furniture store on Fallowfield avenue by A. C. Einstein, representing the Hobart M. Cable piano company, who will be assisted by local talent. The program will consist of compositions by some of the best known composers of past and present.

Assisting Mr. Einstein will be Miss Edith Crill, soprano, and Joseph Wheeler, violinist. Miss Crill will sing "The Rosary," by Ethelbert Nevin, and "A Dream" by Bartlet. Mr. Wheeler will play "Jocelyn" by Godard and "Cavatina" by Raff.

Accompaniments will all be played on the Hobart M. Cable player piano. Solos will also be rendered on this beautiful instrument. A special player-piano was shipped here by express yesterday for the recital tonight. It possesses a tone that charms and places it at once in the forefront among the best makes of instruments.

Monongahela Man Claimed Damages for Alleged Injuries to His Ankle

In the case of the Dr. G. K. Hays of Monongahela, who sued the Eldora Amusement company for damages for injuries claimed to have been sustained while riding on the bamboo slide, the jury brought in a verdict sealed, which was made public this morning. Damages to the amount of \$400 were awarded the plaintiff. The Eldora Amusement company will take an appeal to the Superior Court.

Rev. E. G. Stanley is Formerly Welcomed to Local Church

SPIRIT OF CHURCH UNITY

Church and denominational fraternalism and church unity were keynote of talks made Friday evening at the reception given at the First Baptist church in honor of the new pastor and his wife, Rev. and Mrs. Edwin G. Stanley. Talks were made by local and visiting ministers, and by members of the local church.

A committee of which Dr. C. C. Wright was chairman was in charge of the program. S. R. Hawkins spoke on behalf of the board of deacons extending a warm welcome to Rev. Stanley and he was followed by Charles O. Frye, who talked as a representative of the board of trustees. Mrs. C. C. Wright rendered a soprano solo.

As a representative of the church Rev. M. B. Sloan who has been supplying the local pulpit made an address in which he made a review of conditions and welcomed the new pastor. Rev. H. C. Gleiss, corresponding secretary of the Pittsburgh Baptist Association spoke. Rev. J. T. Hackett, pastor of the First Presbyterian church, the president of the Charleroi Ministerial Association made a talk that was partly historical in a review of church work and he was followed by Rev. John R. Burson, pastor of the Washington Avenue Presbyterian church. Through all the talks ran the same theme of church unity and church fraternalism. The choir under the direction of D. C. Whitlatch rendered a selection. After a prayer by Rev. L. V. Jones, of St. James A. M. E. church a social hour was enjoyed during which time refreshments were served by women of the church.

Members of Athene Club and Their Guests Enjoy Annual Event

INTERESTING ADDRESSES

Mrs. Ruslander, Mrs. Armstrong and Mrs. Coard Ably Discuss Topics

Featured by the presence of Mrs. Moses Ruslander, of Pittsburgh, president of the Jewish Council of Women and one of the leading workers for the School for the Blind; Mrs. John H. Armstrong of Pittsburgh, president of the New Era club and Mrs. Robert D. Coard, the State President of the Congress of Women's Clubs and vice president of the Federated clubs of Southwestern Pennsylvania, the annual Reciprocity Meeting of the Athene club of Charleroi was held Friday afternoon. Mrs. Franklin P. McCloskey entertained the club at her beautiful home on Crest avenue.

Fifty were present, the guest list including a number of representatives of clubs from California, Monessen, Donora and Monongahela. The program carried out was in thorough accord with the study of "Historical Women" that the Athene Club is pursuing this year. "Rebecca Crut" was the topic discussed by Mrs. Ruslander, who made the first talk. She pictured this lovely heroine of "Walter Scott's classic, "Ivanhoe" as a characteristic type of noble women, who though sorely oppressed demonstrated that nobleness of purpose and that trait of character that makes her the admired being that she is.

Mrs. Armstrong selected as her theme "Noted Women of this Age." Her talk was a fitting continuation of the thoughts of womanly character and attributes suggested by Mrs. Ruslander. She spoke of the women whose names are familiar and whose deeds are entirely as well known universally.

The character of "Becky Sharp," as portrayed by Minnie Madden Fisk in her play was discussed by Mrs. Coard, who gave an able delineation of this famous character. Mrs. I. T. Daniel rendered in a charming manner two numbers "A May Morning," by Weatherly and "Star of Bethlehem," by Barry. Her accompanist was Miss May Barth.

Decorations were in green and white, cut flowers and plants in artistic arrangement enhancing the otherwise beautiful appearance of the McCloskey home. Dainty refreshments were served at the close of the program, the color scheme being carried out in the cakes and ices.

Mrs. Ruslander, Mrs. Armstrong and Mrs. Coard were entertained at luncheon at the Wilbur Hotel upon their arrival here at noon by Mrs. T. M. Faddis, the president of the Athene club and Mrs. A. R. Mountsler, the corresponding secretary.

WHY NOT CHARLEROI?

Mention has been made from time to
time of the desirability as well as
the expediency of holding the county
teachers' institute in Charleroi.
There are ample facilities for the
accommodation of the teachers, as
well as unusual conditions for their
entertainment and instruction. In
addition it is hardly fair that the
county seat should derive all the ad-
vantages from the association with
this most desirable element.

If an institute were to be held in
Charleroi, instead of the cut and
dried lectures and musical combina-
tions that are provided for enter-
tainment the teachers could be taken
through our large industries and be
shown the wonders and mysteries of
modern industry. A visit to the Mac-
beth-Evans Glass factory, where the
highest art and skill is employed in
making plain and ornamental lamp
shades of every conceivable design
would be most instructive. The Im-
perial bottle factory, also, is a most
attractive place to visit, while a tour
across the river to the big steel, wire
and tin plate mills would afford a
liberal education in practical indus-
try in itself.

There is no denying the fact that
the association of this gathering of
school ma'ams brings a pecuniary
benefit to the town as well as a so-
cial and moral uplift. It is up to the
business people of Charleroi to look
after this matter and to try to bring
to Charleroi this most desirable con-
vention. There is no reason why
Washington should not divide up
some of the public privileges with
other towns in the county.

A BUSINESS BAROMETER

The Weekly Financial Review of
the banking house of Henry Clews &
company of New York, for this week
says that by far the most significant
element in the industrial situation is

the striking improvement in the iron
trade. The turn was made about
the middle of October. Since then
orders have steadily expanded, and
this week the big producers of finish-
ed steel have been so besieged that in
not a few lines capacity is fully engaged
for four to six months ahead. The
probability is that the close of the
year will find about 80 per cent of
the country's steel capacity fully em-
ployed. This is an exceedingly sat-
isfactory state of affairs, albeit there
is room for further improvement.
The bulk of orders have come from
the railroads, which deferred their
purchases for material so long that
a rush of belated business is now
coming on.

If not actually a buyer's panic, the
present anxiety to place orders is at
least somewhat suggestive of that
state of affairs. Some of the roads
have already waited too long in
placing their orders for rails and
equipment and may find themselves
crippled for want of the latter in
case of any substantial revival of
traffic. Big expenditures are ahead
for the railroads in compliance with
the demand for better facilities and
more modern standards.

The iron trade is still regarded as
one of our most reliable trade bar-
ometers, and it is quite certain that
railroad managers with their excep-
tional opportunities for observation
would not be placing such large or-
ders for equipment unless satisfied
that a turn for the better had come.

ELECTRIC SPARKS

The site of a prison doesn't matter
so much as long as the walls are
tight.

Many good people are not averse
to expectorating on the floor.

There is an increasing tendency to
do away with receptions for friends
apparently because of the tight race
for the Almighty dollar.

The mildest appearing men are
sometimes the most dangerous to
trifle with.

Ban Johnson now admits his de-
claration was a huge bluff. It isn't
surprising.

What's the use of buying the dear-
est pearls for Christmas presents?
They are more easily lost than cheap-
er ones.

There is a big difference between
poetry at \$15 a ton and hay at the
same price.

There seems to be a pretty close
relation between flirting and divorce.

Home life would be more appreci-
ated by some men if they could have
there all the comforts of their favor-
ite club—including the seltzers.

Lane, a Philadelphia leader, says
that neither Roosevelt nor Roosevelt
could beat President Taft for the
nomination. Uh, huh.

Now the question may be asked:
Have you done it early?

It won't be so very long until the
Cheat river is harnessed and hook-
ed up.

To the rich apparently the latch
string is always out.

PICKED UP IN PASSING

"It is a remarkable coincidence
that the county institute should be
held at Washington the week before
Christmas," remarked a Charleroi
merchant. "Of course I do not
charge County Superintendent Crum-
rine with collusion with the Wash-
ington merchants in order to get the
Christmas trade of the county school
ma'ams, but the institute surely hap-
pens just right for the Washington
business people. There are about
800 teachers employed in the county
and practically all are compelled to at-
tend the institute. Besides deriving
a benefit and enjoying a pleasant
jaunt, the teachers get extra pay, and
this makes them feel that they can
spend some extra money for Christ-
mas buying away from home.

"The presence of perhaps 700
dainty school ma'ams with well-filled
purses in town for a week cannot
fail but be advantageous to the mer-
chants of the county seat. I know
that if the bunch were in Charleroi,
the same length of time they would
become separated from a goodly por-
tion of their money by the wily arts
of the Charleroi merchants. I dare
say the institute will leave at least
\$10,000 of the teachers' money at the
county seat, which will be expended
among the hotels, boarding houses
and stores. I only wish Charleroi had
the same chance."

A Charleroi resident thought he
would be funny with his wife and in
the presence of a company of neigh-
bors in answer to her question as to
what he was going to get her for
Christmas, said:

"Well, I think that you need a
washboard, more than anything else."

The wife's reply was as unexpected
as it was disconcerting, for she very
sweetly remarked:

"Isn't that strange now? I had
just been considering the things that
you need most and had decided to buy
a pick and shovel."

W. F. Hennings sells it, and is willing
to guarantee it to stop backache, side-
ache and sharp, shooting pains and
to cure Bright's disease and any and
all kidney, liver and bladder trouble,
or money back.

It is a great maker of pure blood,
and a builder of flesh, because it
promptly cleans the kidneys and puts
them in such perfect condition that
the impurities are thoroughly strain-

Lightning Kills Few.

In 1906 lightning killed only 169
people in this whole country. One's
chances of death by lightning are
less than two in a million. The chance
of death from liver, kidney or stomach
trouble is vastly greater, but not if
Electric Bitters be used, as Robert
Madsen of—West—Burlington, Ia.,
proved. Four doctors gave him up
after eight months of suffering from
virulent liver trouble and yellow
jaundice. He was then completely
cured by Electric Bitters. They're

CHARLEROI IS WINNER

Defeat the Georges on the Latter's Floor in Tight Game

The Washingtons were separated from victory by three points when they finished their game with the Charleroi passers on their home floor Friday night and the fans there are still hopeful of winning a victory this season. Charleroi allowed Washington to lead at the end of the first half just to encourage them and then in the second forged ahead until at the end the score stood 39 to 36.

Washington played hard all through the game. In fact it looked as though they actually expected to win and the rooters were wildly cheering them on. The first period ended 20 to 19, favor Washington. In the second half with a slightly altered lineup the Magics crept ahead and stuck there by a brief margin until the game closed. The lineup: Washington—36 Charleroi—39

Artz F. Adams
Kunkle F. J. Brown
Pickles C. Dolin
Brady G. A. Brown
Boish G. Pfeiffer

Substitutions—A. Brown for Dolin, Pfeiffer for A. Brown. Field goals—Artz 2, Kunkle 4, Pickles,

Brady 3, Adams 2, J. Brown 4, Dolin, A. Brown, Pfeiffer. Foul goals—Brady 16 out of 19, Adams 20 out of 28. Referee—Kummer.

BASKETBALL GAME AT IMPERIAL CLUB

The Cardinals Thursday night defeated the Senators by a score 24 to 21, in the Imperial league at the Concordia Hall. Lineup: Cardinals—24 Senators—21

Laurie F. Myers
Goaziou C. Watts
Martin G. Brigode
Lhoest G. Williams

Substitutions—Leclaire for Stech. Field goals—Laurie 2, Goaziou 3, Martin, Lhoest 4, Myers 3, Stech 2, Brigode, Watts. Fouls—Martin 4 out of 11. Myers 7 out of 10. Referee—Kiefer.

Among The Passers

Jack Adams did considerable of the scoring himself Friday night. He got 25 points, 21 of them being foul goals.

Connellsville beat Uniontown. The Cokers surely seem to have the Searian's measure.

A good suggestion has been made that the president of the Central league send out the corrected standing every week, as it seems impossible for the papers to maintain the averages with any certain degree of uniformity.

The Johnstown Democrat makes the suggestion that some of the stronger teams farm out a few players to the weaker clubs. Might not be such a bad idea.

SELECTION—With us four-party selective service means there are four phones on one pair of wires, and when any one of the four phones is wanted that individual phone is rung—no one, two, three and four rings with us. When the connection is made there will be no interference from the operator. Our four-party service is vastly better than the old style straight line.

CHARLEROI TELEPHONE CO.

C. H. CHRISTNER, Manager

A Telephone for a Year Makes an Ideal Christmas Present.

WE give three months' service FREE, and in addition to that, there are so many reasons why you should use Our Service, the extra inducement above offered should cut no figure. In the first place, our rates are right, and our equipment is in the same class--it's right.

There is very little use for dual or double service in Charleroi. Fully 98 per cent. of the calls placed on a board are local--right in town. If necessary, why not go to a pay station to get that 2.100 per cent. (The "universal" monopoly company have pay stations nearly everywhere--that's the way they keep up their number of phones.)

Another reason--Belle Vernon now has an Independent telephone exchange of over 100 subscribers, with a waiting list, and then you have Roscoe with a list of 120; Fayette City with over 100 (and a new exchange coming in the town proper), California with over 400, Centerville and Maple creek. Our direct line to Washington is a grand improvement over the old process. You don't have to wait.

The Famous Rayo Lamp

The best part of the day is the evening, when the whole family is gathered together around the lamp.

The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of solid brass, with handsome nickel finish--an ornament anywhere.

YOUNG UNTIL THIRTY-FIVE

From That Time On Unmarried Women Are "Old Maids," Says Boston Y. W. C. A.

When does a woman cease to be young? Woman herself, for reasons that require no elaboration here, declines, as a rule, to fix the period. Masculine authorities, for the most part, are chary of venturing upon such dangerous ground. Hence the question has ever been involved in uncertainty and it would perhaps remain so were it not that a responsible authority--none other than the Young Woman's Christian association, the title of which indicates its competency--comes to the front with a decision which may fairly be accepted as conclusive. It is to the Boston branch of the association that the world is indebted for the solution of the problem. The occasion for solving it arose from the completion of a new home for the young women of the association in the Massachusetts city. In framing rules for this establishment, it was found necessary to specify precisely the limit of young womanhood, beyond which the benefits of the home could not be enjoyed. This has been fixed at 35 years. Up to that age a young woman comes within the meaning of the title as understood by the association and may enjoy the advantages of membership and residence in the home. On reaching her thirty-fifth birthday she must resign her quarters. On that fatal day her young womanhood ceases and the "old maid" label is placed upon her indelibly and irrevocably. Thus the matter is settled beyond further cavil or dispute.—Pittsburgh Chronicle-Telegraph.

SOME COMMON DISHES.

The common vegetables are so often served in the same old ways until we grow tired of the monotony. Let us try:

Cabbage Baked With Cheese.—Chop the cabbage and cook it in boiling salted water for half an hour or until tender; put it in layers in a baking dish, alternating with a white sauce and grated cheese, and bake just long enough to melt the cheese.

Turnip and White Sauce.—Wash and slice the turnips into half-inch slices; pare and cut the slices into cubes; cook in boiling salted water until tender. Make a cup of seasoned white sauce and when the turnips are done pour off the water, turn into a vegetable dish and pour the sauce over them.

Cottage Pie.—Chop cold meat to half fill a baking dish. Over the top of the meat spread mashed potato that has been warmed with a little hot milk. Mix with gravy, season to taste and put into a hot oven to thoroughly heat through.

Sour Milk Gingerbread.—Take a half a cup of molasses, one-half cup of sugar, two teaspoonfuls of shortening, one cup of sour milk, one tablespoonful of ginger, half a teaspoon of salt, one teaspoon of soda, and two cups of flour.

Cream the shortening, add the sugar, molasses, salt and ginger. Dissolve the soda in the milk, which is now added, and lastly the flour. Beat well and bake in a flat loaf thirty to forty minutes.

Carrots in Lemon Butter.—Cut the carrots in long, slender strips and lay in cold water to crisp. Cook in boiling water until tender enough to pierce with a fork. Drain, and to each pint allow a tablespoonful of butter, half a teaspoon of salt, half a teaspoon of sugar, and a dust of cayenne. Simmer until the butter is absorbed, then add two tablespoonfuls of lemon juice and a tablespoon of minced parsley. Boil up and serve at once.

INVENTION OF ELECTRIC MINERS' LAMP TO BE GREAT AID IN MINING

Charleroi Company Will Manufacture and Put New Lamp on the Market

ATTRACTING ATTENTION

Universal Interest Taken in Invention--Is Regular Two-Candle Power Electric Light--Can be Re-Charged

By the recent granting of a State charter a new corporation has been launched, the object of which is the manufacture of a miners' storage battery lamp that is designed to meet all the requirements that have heretofore baffled inventors. The new corporation bears the name of the R. & B. Lamp Company, and it is composed largely of Charleroi men.

In view of the frightful loss of life in coal mines during the past few years through explosions, and the dangers incident to operating gaseous mines, much attention has been given the question of lighting. Something was needed to take the place of the open as well as the safety flame lamp, and much investigation and experimentation has been conducted along this line both by the National and State governments, as well as by individuals in an effort to devise something that would add to the safety of the miners in this hazardous occupation.

Some time ago experiments begun by members of the newly-organized corporation had such a successful termination that after a series of tests extending over a period of two years had been completed, the company was organized to manufacture the lamps and place them before the public. The R. & B. Lamp company now offers to the public the most compact, complete, simple and durable miners' lamp ever placed on the market. It is an electric storage battery lamp that will burn continuously during a working turn, and can be re-charged indefinitely and at a cost far below any other source of lighting used by the miner while at work.

The new lamp, of which, so far as known there are none like it anywhere in the world, combines the miners' cap, battery and lamp in one. It gives a two-candle power light, and stands up to a 90-cent efficiency for a period of 10 hours. It is worn on the miners' cap like an ordinary mine lamp, and its maintenance is not one-fifth the cost of an oil lamp. With a 2-candle power incandescent bulb inside a glass reflector, there is no danger whatever of igniting any gases that may be encountered.

An important factor in the development of the new storage battery lamp, is a recharging rack that automatically recharges the batteries in any quantity. The rack is so arranged that each lamp battery can be tested, and if any one is not getting its proper charge, an automatic alarm indicates the lamp that has a defective circuit. The lamps are placed in the racks by the miners when they return from work, and the current turned on for the re-charging process. When the lamps are given out to the miners they are sealed so that

the inspector can instantly detect any tampering with the mechanism of the lamp.

It is the solution that composes the contents of the battery that has solved the problem of weight and efficiency. This is composed of chemicals which under the influence of the electric current while it is being charged becomes a liquid, and as soon as it is charged ready for usage the liquid assumes a jelly-like proportion that prevents the mixture from spilling. The connections of the battery are so arranged that they cannot go wrong and the lamp is doubly strong to withstand hard usage.

It has been demonstrated by actual tests that 500 lamps can be maintained at a cost of 78-100 of a cent a day for each lamp. This includes breakage, solution, current and labor. The lamp has passed the experimental stage, and now bids fair to revolutionize mine lighting.

The company organized for their manufacture is a Pennsylvania corporation. The lamp has been patented in the United States and Canada, as well as in all the principal coal mining countries in Europe. The stock is closely held and none is offered for public subscription. The officers are: President, Geo. F. Rylands, Charleroi; general manager, C. P. Bartley, Pittsburgh; secretary and treasurer, R. H. Rush, Charleroi.

Already the company is being overwhelmed with orders. The lamps are now in use in the Acme mine No. 2 of the Pittsburgh-Westmoreland Coal company near Bentleyville, and are giving the best of satisfaction. Inquiries are coming every day, which indicate the popularity of this method of mine lighting.

In order to still further demonstrate the efficiency of the lamp Geo. F. Rylands president of the company will attend a demonstration of mine lighting lamps to be held at Rotherham, England on January 1. Mr. Rylands will start for New York Monday, and sail from that port on December 20 on the steamship Laurentic, of the White Star line. The search for a safe and simple electric miners' lamp in the mining countries of Europe has been even more strenuous than in this country, and the officials of the R. & B. Lamp company believe that they are prepared to show the experts over there the real thing.

The company has not yet made preparations for the manufacture of the lamps on a large and permanent scale, but that will be worked out as rapidly as possible. It is expected that in the course of time a well-equipped factory will be established and that the industry, from the already big demand for the lamps and the intense interest manifested, will from the very start assume big proportions.

RECEPTION IS GIVEN

Friends and Relatives Compliment Mrs. Margaret Gale

HONOR 90TH BIRTHDAY

On the occasion Friday of the 90th birthday of Mrs. Margaret Gale, she was made the honor guest at a reception given at the home of her daughter, Mrs. Thomas P. Grant of Lincoln avenue. Thirty-five of the relatives and friends grouped about her and spent the afternoon and evening in pleasant conversation. "Grandma" Gale, who is enjoying the best of health in spite of her age, was the merriest of the group.

Dinner and supper were taken at the Grant home by the guests, many of whom were from out of town. Mrs. Gale was showered with profusions of flowers until the reception rooms were strewn. Mrs. Gale is now arranging to go to Orlando, Florida with her daughter and Mr. Grant and the reception assumed in part the nature of a farewell. She will spend the winter at Orlando with Mr. and Mrs. Grant, leaving on New Years eve.

Among the out-of-town people who came to tender their greetings to Mrs. Gale and to wish her many more happy birthdays were Mrs. Mary Gale of East End, Pitsburg, Miss Ruth and Roger Gale of Sewickley; Mrs. James Gale of Beaver; Mrs. Dent Deems of Washington; Mr. and Mrs. M. McGrew of Beaver; Rev. and Mrs. Perrin Baker of Belle Vernon, Mr. and Mrs. Henry Sphar of Roscoe and Mr. and Mrs. Isaac Shepler of Belle Vernon.

Washingtonians to Meet the Adamsites in Game on Local Floor

Washington will make its second appearance on the local floor tonight when it will meet the Charleroi team of passers. Charleroi played at Washington Friday night and won after a hard struggle. With the acquisition of Brady, who has been appointed captain, Washington is putting up no slouch of a game. They made it about as interesting for Charleroi Friday night without something breaking as it was possible. The Magics are seriously in need of another game. Washington is hopeful of winning one.

MATE OF BOAZ IS KILLED

Jesse Price, Formerly of Speers, Hit by Drawn Bulkhead

BROTHER IS NOTIFIED

Word was received Friday afternoon by Leroy Price of Fallowfield avenue of the death of his brother, Jesse Price, aged 49, at Neville Island, on the Ohio river some time Friday morning. The latter was killed by a bulkhead on the towboat, Boaz, of which he was first mate, pulling out and striking him. George Garry and Samuel Detweiler were injured at the same time and the former's condition is serious.

Mr. Price and the other two men who were hurt were engaged in mooring the Boaz at Neville Island when the accident occurred. Mr. Price being of the kind of man who though in a position to direct insisted upon doing the hardest work with his men was engaged in duties near the bulk head when it pulled out and he received its full force as it was sharply drawn through the air by a coiling rope. His head was crushed and his body was otherwise cut and mangled. He leaves his widow, two children, three brothers, three sisters and his mother.

Mr. Price was a native of this vicinity and was raised at Speers. He was a well known riverman. Funeral services will be held at the late home at 2:30 o'clock Sunday afternoon and the body will be brought to Speers on Monday morning. Interment will follow in Mt. Tabor cemetery.

Will Give a Recital

Player-Piano to be Used in Accompaniments for Violin and Vocal

Tonight a free musical recital will be given at the W. B. Pfeighardt Furniture store on Fallowfield avenue by A. C. Einstein, representing the Hobart M. Cable piano company, who will be assisted by local talent. The program will consist of compositions by some of the best known composers of past and present. Assisting Mr. Einstein will be Miss Edith Crill, soprano, and Joseph Wheeler, violinist. Miss Crill will sing "The Rosary," by Ethelbert Nevin, and "A Dream" by Bartlet. Mr. Wheeler will play "Jocelyn" by Godard and "Cavatina" by Raff.

Accompaniments will all be played on the Hobart M. Cable player piano. Solos will also be rendered on this beautiful instrument. A special player-piano was shipped here by express yesterday for the recital tonight. It possesses a tone that charms and places it at once in the forefront among the best makes of instruments.

PASTOR IS RECEIVED

Rev. E. G. Stanley is Formerly Welcomed to Local Church

SPIRIT OF CHURCH UNITY

Church and denominational fraternalism and church unity were keynote of talks made Friday evening at the reception given at the First Baptist church in honor of the new pastor and his wife, Rev. and Mrs. Edwin G. Stanley. Talks were made by local and visiting ministers, and by members of the local church.

A committee of which Dr. C. C. Wright was chairman was in charge of the program. S. R. Hawkins spoke on behalf of the board of deacons extending a warm welcome to Rev. Stanley and he was followed by Charles O. Frye, who talked as a representative of the board of trustees. Mrs. C. C. Wright rendered a soprano solo.

As a representative of the church Rev. M. B. Sloan who has been supplying the local pulpit made an address in which he made a review of conditions and welcomed the new pastor. Rev. H. C. Gleiss, corresponding secretary of the Pittsburgh Baptist Association spoke. Rev. J. T. Hackett, pastor of the First Presbyterian church, the president of the Charleroi Ministerial Association made a talk that was partly historical in a review of church work and he was followed by Rev. John R. Burson, pastor of the Washington Avenue Presbyterian church. Through all the talks ran the same theme of church unity and church fraternalism. The choir under the direction of D. C. Whitlatch rendered a selection. After a prayer by Rev. L. V. Jones, of St. James A. M. E. church a social hour was enjoyed during which time refreshments were served by women of the church.

Members of Athene Club and Their Guests Enjoy Annual Event

INTERESTING ADDRESSES

Mrs. Ruslander, Mrs. Armstrong and Mrs. Coard Aply Discuss Topics

Featured by the presence of Mrs. Moses Ruslander, of Pittsburgh, president of the Jewish Council of Women and one of the leading workers for the School for the Blind, Mrs. John H. Armstrong of Pittsburgh, president of the New Era club and Mrs. Robert D. Coard, the State President of the Congress of Women's Clubs and vice president of the Federated Clubs of Southwestern Pennsylvania, the annual Reciprocity Meeting of the Athene club of Charleroi was held Friday afternoon. Mrs. Franklin P. McCloskey entertained the club at her beautiful home on Crest avenue.

Fifty were present, the guests including a number of representatives of clubs from California, Monessen, Donora and Monongahela. The program carried out was in thorough accord with the study of "Historical Women" that the Athene Club is pursuing this year. "Rebecca Graue" was the topic discussed by Mrs. Ruslander, who made the first talk. She pictured this lovely heroine of Sir Walter Scott's classic, "Ivanhoe" as a characteristic type of noble women, who though sorely oppressed yet demonstrated that nobleness of purpose and that trait of character that makes her the admired being that she is.

Mrs. Armstrong selected as her theme "Noted Women of this Age." Her talk was a fitting continuation of the thoughts of womanly character and attributes suggested by Mrs. Ruslander. She spoke of the women whose names are familiar and whose deeds are entirely as well known universally.

The character of "Becky Sharp" as portrayed by Minnie Madden Fisk in her play was discussed by Mrs. Coard, who gave an able delineation of this famous character. Mrs. I. T. Daniel rendered in a charming manner two numbers "A May Morning" by Weatherly and "Star of Bethlehem," by Barabys. Her accompanist was Miss Max Barth.

Decorations were in green and white, cut flowers and plants in artistic arrangement enhancing the otherwise beautiful appearance of the McCloskey home. Dainty refreshments were served at the close of the program, the color scheme being carried out in the cakes and ices.

Mrs. Ruslander, Mrs. Armstrong and Mrs. Coard were entertained at luncheon at the Wilbur Hotel upon their arrival here at noon by Mrs. T. M. Faddis, the president of the Athene club and Mrs. A. R. Mousnier, the corresponding secretary.

WHY NOT CHARLEROI?

Attention has been made from time to
time of the desirability as well as
the expediency of holding the county
teachers' institute in Charleroi.
There are ample facilities for the
accommodation of the teachers, as
well as unusual conditions for their
entertainment and instruction. In
addition it is hardly fair that the
county seat should derive all the ad-
vantages from the association—with
its most desirable element.

If an institute were to be held in
Charleroi, instead of the out and
dried lectures and musical combina-
tions that are provided for enter-
tainment the teachers could be taken
through our large industries and be
shown the wonders and mysteries of
modern industry. A visit to the Mac-
beth-Evans Glass factory, where the
highest art and skill is employed in
making plain and ornamental lamp
shades of every conceivable design
would be most instructive. The Im-
perial bottle factory, also, is a most
attractive place to visit, while a tour
across the river to the big steel, wire
and tin plate mills would afford a
liberal education in practical indus-
try in itself.

There is no denying the fact that
the association of this gathering of
school ma'ams brings a pecuniary
benefit to the town as well as a so-
cial and moral uplift. It is up to the
business people of Charleroi to look
after this matter and to try to bring
to Charleroi this most desirable con-
vention. There is no reason why
Washington should not divide up
some of the public privileges with
other towns in the county.

A BUSINESS BAROMETER

The Weekly Financial Review of
the banking house of Henry Clews &
company of New York, for this week
says that by far the most significant
element in the industrial situation is

the striking improvement in the iron
trade. The turn was made about
the middle of October. Since then
orders have steadily expanded, and
this week the big producers of finish-
ed steel have been so besieged that in
not a few lines capacity is fully engaged
for four to six months ahead. The
probability is that the close of the
year will find about 80 per cent of
the country's steel capacity fully em-
ployed. This is an exceedingly satis-
sfactory state of affairs, albeit there
is room for further improvement.
The bulk of orders have come from
the railroads, which deferred their
purchases for material so long that
a rush of belated business is now
coming on.

If not actually a buyer's panic, the
present anxiety to place orders is at
least somewhat suggestive of that
state of affairs. Some of the roads
have already waited too long in
placing their orders for rails and
equipment and may find themselves
crippled for want of the latter in
case of any substantial revival of
trade. Big expenditures are ahead
for the railroads in compliance with
the demand for better facilities and
more modern standards.

The iron trade is still regarded as
one of our most reliable trade bar-
ometers, and it is quite certain that
railroad managers with their excep-
tional opportunities for observation
would not be placing such large or-
ders for equipment unless satisfied
that a turn for the better had come.

ELECTRIC SPARKS

The site of a prison doesn't matter
so much as long as the walls are
tight.

Many good people are not averse
to expectorating on the floor.

There is an increasing tendency to
do away with receptions for friends
apparently because of the tight race
for the Almighty dollar.

The middest appearing men are
sometimes the most dangerous to
trifle with.

Ban Johnson now admits his de-
claration was a huge bluff. It isn't
surprising.

What's the use of buying the dearest
pearls for Christmas presents?
They are more easily lost than cheap-
er ones.

There is a big difference between
poetry at \$15 a ton and hay at the
same price.

There seems to be a pretty close
relation between flirting and divorce.

Home life would be more appreci-
ated by some men if they could have
there all the comforts of their favor-
ite club—including the seltzers.

Lane, a Philadelphia leader, says
that neither Roosevelt nor Roosevelt
could beat President Taft for the
nomination. Uh, huh.

Now the question may be asked:
Have you done it early?

It won't be so very long until the
Cheat river is harnessed and hook-
ed up.

To the rich apparently the latch
string is always out.

glar, broke into a water factory yes-

side he found a lot of the hands were

PICKED UP IN PASSING

"It is a remarkable coincidence
that the county institute should be
held at Washington the week before
Christmas," remarked a Charleroi
merchant. "Of course I do not
charge County Superintendent Crum-
rine with collusion with the Wash-
ington merchants in order to get the
Christmas trade of the county school
ma'ams, but the institute surely hap-
pens just right for the Washington
business people. There are about
800 teachers employed in the county
and practically all are compelled to at-
tend the institute. Besides deriving
a benefit and enjoying a pleasant
jaunt, the teachers get extra pay, and
this makes them feel that they can
spend some extra money for Christ-
mas buying away from home.

"The presence of perhaps 700
dainty school ma'ams with well-filled
purses in town for a week cannot
fail but be advantageous to the mer-
chants of the county seat. I know
that if the bunch were in Charleroi,
the same length of time they would
become separated from a goodly por-
tion of their money by the wily arts
of the local merchants. I can say
the institute will leave at least
\$10,000 of the teachers' money at the
county seat, which will be expended
among the hotels, boarding houses
and stores. I only wish Charleroi
had the same chance."

A Charleroi resident thought he
would be funny with his wife and in
the presence of a company of neigh-
bors in answer to her question as to
what he was going to get her for
Christmas, said:

"Well, I think that you need a
washboard, more than anything else."
The wife's reply was as unexpected
as it was disconcerting, for she very
sweedly remarked:
"Isn't that strange now? I had
just been considering the things that
you need most and had decided to buy
a pick and shovel."

HEED THE WARNING!

Backache is the Signal that Kidney
Diseases are Nigh

Who doesn't dread the advanced
stages of kidney trouble—Bright's dis-
ease, dropsy and gravel.

But today, throughout America
there are tens of thousands suffering
the torments of hopeless agony just
because they failed to heed the first
signal, the certain warning of future
misery—backache.

Backache means that your kidneys
are weak.

Stop kidney disease at the start,
that's the easiest way and Thomp-
son's Barosma is the surest remedy.
W. F. Hennings sells it, and is willing
to guarantee it to stop backache, side-
ache and sharp, shooting pains and
to cure Bright's disease and any and
all kidney, liver and bladder trouble,
or money back.

It is a great maker of pure blood,
and a builder of flesh, because it
promptly cleans the kidneys and puts
them in such perfect condition that
the impurities are thoroughly strain-
ed from the blood as it passes through
and are promptly eliminated with the
urine. Thompson's Barosma is only
50 cents and \$1.00 a bottle.

Lightning Kills Few.

In 1906 lightning killed only 169
people in this whole country. One's
chances of death by lightning are,
less than two in a million. The chance
of death from liver, kidney or stomach
trouble is vastly greater, but not if
Electric Bitters be used, as Robert
Madsen of West-Burlington, Ia.,
proved. Four doctors gave him up
after eight months of suffering from
virulent liver trouble and yellow

cured by Electric Bitters. They're

CHARLEROI IS WINNER

Defeat the Georges on the Latter's Floor in Tight Game

The Washingtons were separated from victory by three points when they finished their game with the Charleroi passers on their home floor Friday night and the fans there are still hopeful of winning a victory this season Charleroi allowed Washing- ton to lead at the end of the first half just to encourage them and then in the second forged ahead until at the end the score stood 39 to 36.

Washington played hard all through the game. In fact it looked as though they actually expected to win and the rooters were wildly cheering them on. The first period ended 20 to 19, favor Washington. In the second half with a slightly altered lineup the Magics crept ahead and stuck there by a brief margin until the game closed. The lineup:

The Famous Rayo Lamp

The best part of the day is the evening, when the whole family is
gathered together around the lamp.

The old days of the smoky fireplace and flickering candle are gone forever. In their
place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo
lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo
gives. It has become so popular we may almost call it "the official lamp of the
American family."

The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.

Four-party Selective Business, ... 18 per year
Individual Line, ... 24 per year

SELECTION—With us four-party selective service means
there are four phones on one pair of wires, and when any
one of the four phones is wanted that individual phone is
rung—no one, two, three and four rings with us. When
the connection is made there will be no interference from
the operator. Our four-party service is vastly better
than the old style straight line.

WE give three months' service FREE, and in addition to that, there are so
many reasons why you should use Our Service, the extra inducement above
offered should cut no figure. In the first place, our rates are right, and our
equipment is in the same class—it's right.

There is very little use for dual or double service in Charleroi. Fully
98 per cent. of the calls placed on a board are local—right in town. If necessary, why
not go to a pay station to get that 2.100 per cent. (The "universal" monopoly com-
pany have pay stations nearly everywhere—that's the way they keep up their number
of phones.)

Another reason--Belle Vernon now has an Independent telephone exchange of
over 100 subscribers, with a waiting list, and then you have Roscoe with a list of 120;
Fayette City with over 100 (and a new exchange coming in the town proper), Cali-
fornia with over 400, Centerville and Maple creek. Our direct line to Washington is
a grand improvement over the old process. You don't have to wait.

YOUNG UNTIL THIRTY-FIVE

From That Time On Unmarried Wom-
en Are "Old Maids," Says Bos-
ton Y. W. C. A.

When does a woman cease to be
young? Woman herself, for reasons
that require no elaboration here, de-
clines, as a rule, to fix the period. Mas-
culine authorities, for the most part,
are chary of venturing upon such dan-
gerous ground. Hence the question has
ever been involved in uncertainty and
it would perhaps remain so were it not
that a responsible authority—none other
than the Young Woman's Christian
association, the title of which indi-
cates its competency—comes to the
front with a decision which may fairly
be accepted as conclusive. It is to
the Boston branch of the association
that the world is indebted for the so-
lution of the problem. The occasion for
solving it arose from the completion
of a new home for the young women
of the association in the Massachu-
setts city. In framing rules for this
establishment, it was found necessary
to specify precisely the limit of young
womanhood, beyond which the bene-
fits of the home could not be enjoyed.
This has been fixed at 35 years. Up
to that age a young woman comes
within the meaning of the title as un-
derstood by the association and may
enjoy the advantages of membership
and residence in the home. On reach-
ing her thirty-fifth birthday she must
re-sign her quarters. On that fatal day
her young womanhood ceases and the
"old maid" label is placed upon her
indelibly and irrevocably. Thus the
matter is settled beyond further cavil
or dispute.—Pittsburgh Chronicle-Te-
legraph.

Friend Does Perfect Job.

Mark Twain once said, "An enemy
can partly ruin a man, but it takes a
good-natured, injudicious friend to
complete the thing and make it per-
fect."

Arizona's Institutions.

Arizona maintains a prison, an asy-
lum for the insane, an industrial school
and a home for aged and infirm pio-
neers, a university and two normal
schools.

Sometimes.

And it sometimes happens that a
dressmaker ruffles a customer's tem-
per.

Good Advice.

We should all strive to endure our
troubles as cheerfully as we endure
those of our friends.

And Glad to Be Alive.

Some men live in the country, some

The KITCHEN CABINET

I PRAY you with all earnest-
ness to prove and know
within your hearts that all things lovely
and righteous are possible for those who
believe in their possibility, and who de-
termine that for their part they will
make every day's work contribute to
them.

SOME COMMON DISHES.

The common vegetables are so often
served in the same old ways until
we grow tired of the monotony. Let
us try:

Cabbage Baked With Cheese.—Chop
the cabbage and cook it in boiling
salted water for half an hour or un-
till tender, put it in layers in a bak-
ing dish, alternating with a white
sauce and grated cheese, and bake
just long enough to melt the cheese.

Turnip and White Sauce.—Wash
and slice the turnips into half-inch
slices pare and cut the slices into
cubes; cook in boiling salted water
until tender. Make a cup of seasoned
white sauce and when the turnips are
done pour off the water, turn into a
vegetable dish and pour the sauce
over them.

Cottage Pie.—Chop cold meat to
half fill a baking dish. Over the top
of the meat spread mashed potato
that has been warmed with a little
hot milk. Mix with gravy, season to
taste and put into a hot oven to thor-
oughly heat through.

Sour Milk Gingerbread.—Take a
half a cup of molasses, one-half cup
of sugar, two teaspoonfuls of short-
ening one cup of sour milk, one ta-
blespoonful of ginger, half a tea-
spoon of salt, one teaspoon of soda,
and two cups of flour.

Cream the shortening add the
sugar, molasses, salt and ginger. Dis-
solve the soda in the milk, which is
now added, and lastly the flour. Beat
well and bake in a flat loaf thirty to
forty minutes.

Carrots in Lemon Butter.—Cut the
carrots in long, slender strips and lay
in cold water to crisp. Cook in boil-
ing water until tender enough to
pierce with a fork. Drain and to
each pint allow a tablespoonful of but-
ter, half a teaspoon of salt, half a
teaspoon of sugar, and a dust of cay-
enne. Simmer until the butter is ab-
sorbed, then add two tablespoonfuls
of lemon juice and a tablespoon of
minced parsley. Boil up and serve at
once.

CLASS HOLDS ITS REGULAR MEETING

The Queen Esther class of the Methodist Episcopal church of which Professor W. A. Swick is the teacher, held their regular meeting at the home of Miss Hazel Lambert of Fallowfield avenue. Those present were: Elizabeth Steinbaugh, Aletha Small, Lois Geho, Anna Hendershot, Myrtle Murray, Hazel Lutes, Priscilla Murray, Edith Crill, Margaret Heaton, Marion Martin, Gwendoline Richards, Alvert Lambert, and Prof. Swick.

MUST BELIEVE IT

When Well-Known Charleroi People Tell It So Plainly.

When public endorsement is made by a representative citizen of Charleroi the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Mrs. William Stopp, 214 Second St. Charleroi, says: "I have used Doan's Kidney Pills off and on for five years and consider them unequalled for kidney disease. I suffered for some time from backache and was also subject to headache and dizzy spells. Doan's Kidney Pills were finally brought to my attention and procuring a box at Piper Bros. Drug Store, I began their use. They benefited me greatly and I have since kept a supply on hand."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Old Attendant Was Faithful.
When Napoleon died at Longwood, St. Helena, a rainstorm was raging. A faithful attendant threw over the body of the emperor the cloak he had worn at Marengo—a battle won by the incomparable Dessaix after it had been lost by the commander-in-chief of the army of Italy.

For Poor Actresses.
Baronne Koenigswater of Frankfurt, formerly a distinguished actress of Vienna, has just set aside a fund of \$5,000, the income of which is to provide poor actresses with necessary stage clothes, the lack of which often hinders their career. Other people are being asked to join in this work.

She Was Not Surprised.
"Weren't you sorry when you heard that Tolstol was dead?" asked Mrs. Oldcastle. "Yes," replied her hostess, as she pushed a \$900 bracelet up on her left arm, "but it was not at all surprisin'. Folks that go up in them things are always sure to get a fall sooner or later."
